Dear Mr Lucas Hixson and Erik Kambarian,

The Chornobyl NPP expresses its gratitude to your organization for the active actions initiated to provide assistance to homeless animals in the Exclusion zone and will assist in the implementation of such assistance.

The beginning of your work highlights the seriousness of the Clean Futures Fund's intentions.

Therefore, the Chornobyl NPP considers it important to draw your organization's attention to the existence of a large number of children in Slavutych, who need our help. Unfortunately, the problems of these children can not be handled by the community of Slavutych on their own, without support from outside organizations.

The Chornobyl NPP gathered information about 32 children from 2 years and older who currently require rehabilitation treatment, pharmaceutical drugs or surgery, and addresses a request to the Clean Futures Fund to join efforts with the Slavutych community for the benefit of children who need our help.

Faithfully yours ,
